

Captain::Util::EventRecorder
::EventRecorder

Captain::Util::EventRecorder
::EventRecorder

Captain::Util::EventRecorder
::RemoveExistingFile

```
graph LR; A[Captain::Util::EventRecorder::EventRecorder] --> C[Captain::Util::EventRecorder::RemoveExistingFile]; B[Captain::Util::EventRecorder::EventRecorder] --> C;
```

The diagram consists of three rectangular boxes. On the left, there are two white boxes with black borders, each containing the text 'Captain::Util::EventRecorder' on the top line and '::EventRecorder' on the bottom line. On the right, there is a single gray box with a black border containing the text 'Captain::Util::EventRecorder' on the top line and '::RemoveExistingFile' on the bottom line. Two blue arrows originate from the right side of the two white boxes and point towards the left side of the gray box, indicating a relationship or mapping between the two 'EventRecorder' objects and the 'RemoveExistingFile' method.
