

Captain::Engine::AddEvent

Captain::Engine::AddStation

Captain::UnitIdentifier
::WithSubID

```
graph LR; A[Captain::Engine::AddEvent] --> C[Captain::UnitIdentifier::WithSubID]; B[Captain::Engine::AddStation] --> C;
```

The diagram illustrates a relationship between two functions and a common trait. On the left, there are two white rectangular boxes with black borders. The top box contains the text 'Captain::Engine::AddEvent' and the bottom box contains 'Captain::Engine::AddStation'. On the right, there is a gray rectangular box with a black border containing the text 'Captain::UnitIdentifier' on the top line and '::WithSubID' on the bottom line. Two blue arrows originate from the right side of the two white boxes and point towards the left side of the gray box, indicating that both functions implement or inherit from the trait defined in the gray box.
