

Tests/UnitTestsOffline
/UtilTests/VehicleQueueTests.hpp

```
graph BT; A[Tests/UnitTestsOffline /Tests.cpp] --> C[Tests/UnitTestsOffline /UtilTests/VehicleQueueTests.hpp]; B[Tests/UnitTestsOffline /UtilTests/VehicleQueueTests.cpp] --> C;
```

The diagram illustrates a dependency structure where two source files, `/Tests.cpp` and `/UtilTests/VehicleQueueTests.cpp`, both include the header file `/UtilTests/VehicleQueueTests.hpp`. The header file is represented by a gray box at the top, while the source files are in white boxes below it. Blue arrows point from each source file box to the header file box.
