

TiXmlDocument::Accept

TiXmlElement::Accept

TiXmlVisitor::VisitExit

```
graph LR; A[TiXmlDocument::Accept] --> C[TiXmlVisitor::VisitExit]; B[TiXmlElement::Accept] --> C;
```

The diagram illustrates a visitor pattern implementation. On the left, two white rectangular boxes represent the methods `TiXmlDocument::Accept` and `TiXmlElement::Accept`. On the right, a gray rectangular box represents the method `TiXmlVisitor::VisitExit`. Two blue arrows originate from the right side of the left boxes and point towards the left side of the gray box, indicating that both `Accept` methods delegate the call to `VisitExit`.
